- Teamwork, multitasking, attention to detail and project management.

PROJECTS

Out and About

<https://outnabout.herokuapp.com>

<https://github.com/caoimhejyoti/out-and-about>

Out and About is all about getting outdoors and seeing your local area. Users answer riddles, get quest maps and then go on an adventure. A key goal of this project was to encourage users to exercise and get moving without it being the focus.

Personal Responsibilities

- Database
- Researching APIs, creating and rendering of maps.
- Creation of QR Code page and badge rendering
- Design of badges
- Working as part of the team to resolve development issues.

Technologies used

- React
- Mapbox API
- Material UI library
- MongoDB/Mongoose
- Apollo/GraphQL
- Canva
- JavaScript
- HTML

Buddy Up

<https://buddy-up-project.herokuapp.com>

<https://github.com/caoimhejyoti/buddy-up>

Buddy Up is a space for gamers to meet and play their chosen game together. Users can either request a buddy or reply to other users. Created as a group project.

Personal Responsibilities

- Creating Database schema and models
- HTTP request methods
- Working as part of the team to resolve development issues.

Technologies used

- NodeJS
- Handlebars
- Sequelize
- MySql
- Prettier
- Express

PROJECTS

Pumping Party Planner

<https://caoimhejyoti.github.io/pumping-party-planner/>

<https://github.com/caoimhejyoti/pumping-party-planner>

Pumping Party Planner is a web application designed for any party planner. The application allows users to search for cocktails or music and save their choices in their party list. Created as a group project.

Personal Responsibilities

- Responsible for all music related code.
- Researched appropriate API to use.
- Working as part of the team to resolve development issues.

Technologies used

- Music Brainz API
- JavaScript
- Tailwind CSS library
- HTML

EDUCATION

Fullstack Coding Bootcamp

University of Western Australia
2023

Bachelor of Arts in Choreography

Falmouth University, UK
2014

CAOIMHE YOUNG

**FULL STACK
DEVELOPER**

PROFESSIONAL EXPERIENCE

Marketing Officer

Coastal Lakes College
January 2022 to January 2023

Manage all marketing, communications and events for a new high school in the Mandurah region.

- Developed the college website, overseeing the expansion into senior school.
- Expanded and designed all in-house documents for stakeholders and the community. Resulted in easier access to information for all parties.
- Established a college Instagram. This increased the college's web presence and broadened the audience online to include current and future students.
- Negotiated funding for end of year awards. This allowed for an increase in their value and number.

Accreditation Manager

Royal Horticultural Society, UK
January 2019 to December 2019

Responsible for the access to 5 world-renowned flower shows; 42,000 individuals across the individual show sites.

- Pioneered the new Accreditation Manager role.
- Established operational processes allowing for a seamless transition into the Shows Department.
- Collaborated with external contractors to achieve smooth operation on site.
- Spearheaded the upgrade of data management software, including the designing of data storage and user experience.
- Supervised and trained all team members, enabling the continuation of company processes while on site.

Freelance Events and Theatre Technician

UK and Perth, WA
April 2015 to September 2021

Various roles across multiple venues, event types and durations.

- Managed a successful freelance career with the ability to comfortably transition between roles.
